## Whisper - Milk Inc

Time flies- when you're lying next to me

Your eyes- are the only thing I see

Let's make this moment last

Try not to move too fast

Just bring your lips to my ear

Don't say you love me! Don't say you love me, yeah!

Don't say you need me, some things are better left unsaid!

But If you feel the same, just whisper, whisper my name

If you feel the same just whisper my name

Time flies- when your body's close to mine

Your eyes- sending shivers down my spine

Let's make this moment last

Try not to move too fast

Just bring your lips to my ear

Hush now! Let's not end before we start

Hush now! Lay your whisper on my heart

Don't say you love me! Don't say you love me, yeah!

Don't say you need me, some things are better left unsaid!

But If you feel the same, just whisper, whisper my name!

If you feel the same just whisper my name!

But If you feel the same, just whisper, whisper my name!

If you feel the same just whisper my name!
