

Stranger Things Rap – Millie Bobby Brown

Let's go back to Indiana, circa Nineteen Eighty-Three
Just four boys in the basement chillin' playin' D&D T
Here was Lucas, there was Willy-Will and Dustin,
There was Mike But one night Will goes missing
While he's riding on his bike – yikes!
That's when they met me- Elev I had no hair on my head
I had been so close to dead
Courtesy of Dr Brenner who's huntin' me twenty-four sev
Joyce was hanging Christmas lights in the web
Started hearing something Willy had said
This could be a message from the beyond
What happened to Barb? She's just gone in the Upside Down
Hopper's on top of the case I'm throwing vans into space
I'm lying down in a tank
Trying my best to find Willy and Dustin's got pudding
For days Demogorgon's getting' all in my way Blast
Him to pieces just like a grenade Will's now at home
Coughin' slugs in the sink
What happened to me? I'm in the Upside Down
What about now? The saga continues, tune in to see how
Upside down
What about now? The saga continues, tune in to see how
All I need is my Eggo waffles, I'm in love with those
What I'm left with when I use my powers is a bloody nose
Bad news when you see that bloody nose Bad news when you
See that bloody nose
