

Lady Of Worlds – Miracle of Sound

I'm here again
No place and everywhere
Black bark and smouldering air
My influence
Another turn
Another peace to shun
Gauntlet of frost to run
No difference

Back and forth on the pendulum
Swinging hard towards the outside
Smash the walls of the clocks and run
Overcoming the confines

Time and space on the frailest veil
Frozen cold in the static
Bloody blades under hatred's sails
Tearing out through the fabric

The shimmer of white skies
I spin to & fro
A flicker of wild eyes
Gifts I can't control
The shimmer of white skies
The legacy leashed in my cries
Shall reign over bitter white skies

I pay the debt
Muse to another's song
Heir to another's wrongs
Unwanted crown
Dance on the wind
Through space and time I swirl
The lady of the worlds
Don't hold me down

Back and forth on the pendulum
Swinging hard towards the outside
Smash the walls of the clocks and run
Overcoming the confines

Wake the wolf with a distant roar
Strands of ash separated
To entwine on a misty shore
Troubled lives ever fated

The shimmer of white skies
I spin to & fro
A flicker of wild eyes
Gifts I can't control
The shimmer of white skies
The legacy leashed in my cries
Shall reign over bitter white skies

Weave these strands of ash together
Warm our hands on the embers of time

The shimmer of white skies
She spins to & fro
A flicker of wild eyes
She's losing control
The shimmer of white skies
I'm haunted at night by her cries
Yeah, I'm frozen cold

The shimmer of white skies
I spin to & fro
A flicker of wild eyes
Gifts I can't control
The shimmer of white skies
The worth I no longer defy
Shall reign over bitter white skies

Back and forth on the pendulum
Swinging hard towards the outside
Smash the walls of the clocks and run

Overcoming the confines
Back and forth on the pendulum
Swinging hard towards the outside
Smash the walls of the clocks and run
Overcoming the confines
