

Don't take away my heart – Modern Talking

Electrify my heart, electrify my soul
Oh baby don't, don't lose control
Electrify my skin, electrify my brain
Oh baby don't leave me again
No matter what I do, I do it just for you
Love will last forever
You are a part of me, I'm not to blind to see
We'll stay together
Don't take away my heart
Don't break it and depart
I'll be right here next to you
Don't take away my heart
Don't break it and depart
When my heart beats, oh it's true
Why do you promise, why do you promise love,
Don't say it's over
Why do you promise, why do you promise love,
I'll be your lover
Electrify my life, electrify the rain
Tell me the number of heaven again
Electrify my night, electrify my time
You are always on my mind
Why do I love you so, cannot let you go
Dreams will last forever
The way you look tonight, lighting up my life
Let's stay together
I will stay, I will go, oh my baby let me
Know
I will die, I will steal, baby if your love
Is real
