## Don't take away my heart - Modern talking

Electrify my heart, electrify my soul

Oh baby don't, don't lose control

Electrify my skin, electrify my brain

Oh baby don't leave me again

No matter what I do, I do it just for you

Love will last forever

You are a part of me, I'm not to blind to see

We'll stay together

Don't take away my heart

Don't break it and depart

I'll be right here next to you

Don't take away my heart

Don't break it and depart

When my heart beats, oh it's true

Why do you promise, why do you promise love,

Don't say it's over

Why do you promise, why do you promise love,

I'll be your lover

Electrify my life, electrify the rain

Tell me the number of heaven again

Electrify my night, electrify my time

You are always on my mind

Why do I love you so, cannot let you go

Dreams will last forever

The way you look tonight, lighting up my life

Lets stay together

I will stay, I will go, oh my baby let me

Know

I will die, I will steal, baby if your love

Is real
