

Ruin & Misery – Moonspell

In each of your failures
I saw my victory
And each time you fall A knife
Tattoos a smile
On my lips You're now
Empty of life
And I am drunk with death
Raw models
Ruin & misery
Raw models
Ruin & misery
Raw models
Ruin & misery
Raw models
Ruin & misery
I can offer you a hand
To help you to hold the dagger
A perfect jewel for
Our perfect end
And as we lay, we kissed
Fingers wet with poison
Thinking to each one
There is beauty in death
Raw models
Ruin & misery
Raw models
Ruin & misery
Allow me to doubt
We were lovers who could really share
The only love between us
Was hate
Without hope we could not fear
And silently we disappeared
Hand in hand, we took our lives
And together stopped being
