

Love me forever – Motörhead

Love me forever, or not at all
End of our tether, backs to the wall
You give me your hand, don't you ever ask why
Promise me nothing, live 'til we die
Everything changes, it all stay the same
Everyone guilty, no one to blame
Every way out, brings you back to the start
Everyone dies to break somebody's heart
We are the system, we are the law
We are corruption, worm in the core
One of another, laugh 'til you cry
Faith unto death or a knife in the eye
Everything changes, it all stay the same
Everyone guilty, no one to blame
Every way out, takes you back to the start
Everyone dies to break somebody's heart
Oh, my lost come and take me
Love me or leave me, tell me no lies
Ask me no questions, send me no spies
You know love's a thief,
Steal your heart in the night
Slip through your fingers,
You best hold on tight
Everything changes, it all stay the same
Everyone guilty, no one to blame
Every way out, brings you back to the start
Everyone dies to break somebody's heart
Oh, my lost come and take me
