

Visions Of You – Moti Special

Pictures inside
Visions of things to come
Haunting my mind
Memories shining on
I see what we all could do
What's waiting here for me and for you
Visions of you
Are stronger than real life
Seeing it through
It's got to be realized
I see what we all could do
What's waiting here for me and for you
Visions of you
Visions of me
Living the love that better be
Better than you
Better than me
Is it the love that made us be?
Trying it out
Is what life's meant to be
Living out loud
Without limits being free
I see what we all could do
What's waiting here for me and for you
Visions of you
Visions of me
Living the love that better be
Better than you
Better than me
Is it the love that made us be?
Visions of you
Visions of me
Living the love that better be
Better than you
Better than me
Is it the love that made us be?
