

# Afraid of the dark – motionless in white

Yeaaahhhh

Oh!

I've given my life

I suffered and sacrificed to find

That fear is only fatal till it's alchemized

To heal is to repurpose

Take the stage and siphon

All the power from the pain

I turned my struggles into my strength

If the answer is in the unknown

Would you question the path you take?

If the past didn't hurt to let go

Would your future be yours to reclaim?

You'll never know

Yourself till you walk alone

With blind faith and broken bones

So follow the light in your heart,

and be not afraid of the dark

Will you follow me to

Where love met destruction?

Doubt only dies if you keep pouring trust in

Fight or surrender your dreams

Cause it's give up or give everything

You'll never know

Yourself till you walk alone

With blind faith and broken bones

So carry the torch in your heart,

and be not afraid of the dark

How much are you willing to bleed,

To suffer for what you believe?

We can't see the end from the start,

so don't be afraid of the dark

And walk with me

From the ashes I was reborn free

And from the grave I was

rebuilt by what broke me

So tear me apart and you'll see  
You'll see the spine, the heart,  
the blood on the dirt  
You'll feel the pain  
, the rage that feeds on the hurt  
On every scar is a badge  
of a lesson i've learned  
That took me twenty fucking years to earn  
And now I know  
I don't have to do this alone  
A creature that found a home  
When life drained the light from my heart,  
you pulled me from the dark  
I've given you everything  
A lifeline in pieces of me  
We can't see the end from the start,  
But I don't fear the dark  
Dark Inside, with purpose and passion  
Sweat and blood, from Stockholm to Scranton  
Fight or fright, arise from the pages  
Fear not the dark,  
if you mean it you'll make it
