Wilder Mind - Mumford & Sons

It's in my blood, it's in my water

You tried to taint me

Taint me from the start

With that deadness in your eye

Flash your flesh

Desperate for a need to rise

With a silver crystal lung

How will you use to know how to shine?

In a place that's safe from heart

But I had been blessed with a wilder mind

You can be

Every little thing you want nobody to know

And you can try to drown out the street below

And you can call it love

If you want

But hold her now

I find myself awake

Waiting on the edge again

You sleep so sound with your mind made up

Drinking from your cup of broken ends

With a silver crystal lung

How will you use to know how to shine?

In a place that's safe from heart

But I had been blessed with a wilder mind

You can be

Every little thing you want nobody to know

And you can try to drown out the street below

And you can call it love

If you want

But I thought we believed

In an endless love

Well, I thought we believed

In an endless love
