

Fight – Natalia Barbu

(Never, never, never, never)

(-----)

Obsession,

we hide in the back

And devotion's finding a way

When highness

exists for those people

who pray

Every day is like a start

Ups and downs, tears and laugh

We never stop,

just fight

Never let nobody in

And step right on your dream

If you really wanna take this trip

Fighting anywhere we go

To face this cruel world

We gotta just fight forever

Believing,

forfeiting the past

The onfall's adapting the hearts

Itch people

will gnaw our wishes,

no more

Every day is like a start

Ups and downs, tears and laugh

We never stop,

just fight

Never let nobody in

And step right on your dream

If you really wanna take this trip

Fighting anywhere we go

To face this cruel world

We gotta just fight forever

(-----)

Oo-oh, oo-oo-oo-oo-oo-oo

Fighting anywhere we go
To face this cruel world
We gotta just fight forever
