

Ghost Town – Neoni x Layto

Come on, come around
I've been feeling down
Sick and tired of feeling like I'm living in
A ghost town
Come on, come around
Lost and never found
Sick and tired of feeling like I'm living in
A ghost town
I cannot sleep, I cannot see
It's getting harder and harder to breathe
Six feet buried beneath
And all the dust is following me
And the lights go out
Grit my teeth, shut my mouth
When the night come around
I become a ghost now
Oh, oh
Can anybody hear me?
Oh, oh (anybody hear me?)
Scream into the empty void,
Oh, oh (the empty)
Somebody come and get me (come and get me)
Get me
Come on, come around
I've been feeling down
Sick and tired of feeling like I'm living in
A ghost town
Come on, come around
Lost and never found
Sick and tired of feeling like I'm living in
A ghost town
It's like I was haunted, not what I wanted
I'm hearing sounds, nails on my coffin, mm-mm
This is exhausting, leave me for dead
Look what it's costing
And the lights go out

Grit my teeth, shut my mouth
When the night come around (come)
I become a ghost now
Oh, oh
Can anybody hear me?
Oh, oh (can anybody hear me?)
Scream into the empty void,
Oh, oh (scream into the empty)
Somebody come and get me
(Get me, come and get me)
Come on, come around
I've been feeling down
Sick and tired of feeling like I'm living in
A ghost town
Come on, come around
Lost and never found
Sick and tired of feeling like I'm living in
A ghost town
Ghost town
