

# Leaves of September – Night Mistress

The wind begins to blow  
I look into your eyes  
The trees are shaking with fear  
As it's dancing in their crowns  
As it's dancing in their crowns  
Another year has gone  
Another season's come  
The leaves will fall another time  
We have to say goodbye  
We have to say goodbye  
Why do we have to be  
Like the leaves of September?  
Why do we have to leave?  
Why do we have to go away?  
Why do we have to fall again?  
Like September leaf I don't wanna be  
I'm holding your hand  
Yet I see you smile  
Though the sun is shining now  
Feel the rain is coming to my eyes  
The rain is coming to my eyes  
Why do we have to be  
Like the leaves of September?  
Why do we have to leave?  
Why do we have to go away?  
Why do we have to fall again?  
Like September leaf I don't wanna be  
I still see you through the rain  
You smile again,  
We dive in the sunlight  
The picture in my mind it can't ease the pain  
It can't ease the pain  
Why do we have to be  
Like the leaves of September?  
Why do we have to leave?  
Why do we have to go away?

Why do we have to fall again?  
Like September leaf I don't wanna be
