The Wire – Nina

Enter, I've been locked up here forever
I feel it, gotta see it to believe it
Digital
There's a connection, when we're fusing
Analogue
Never forget I could be human
Now it's down to the wire
Can I be a fighter
Will I climb these walls of ice and fire
Before my time expires
Gonna be down to the wire
War game, I was told that I was insane
Release me, is it real or am I dreaming?
Digital
There's connection, when we're fusing
Analogue
Cold to the touch but my heart's beating
Now it's down to the wire
Can I be a fighter
Will I climb these walls of ice and fire
Before my time expires
Gonna be down to the wire
Gonna be down to the wire
Wire
I feel it now, I'm what I am
Gonna be down to the wire
Wire
Now it's down to the wire
I will be a fighter
I will climb these walls of ice and fire
Before my time expires
Gonna be down to the wire
Wire
Now the flames go higher
Will you break the curse of my desire

Before my time expires
Gonna be down to the wire
