

Laureen – Nino De Angelo

What a kind of fool I am
Only diamonds are forever
A woman is a man's best friend
When the girls will stick together
My heart just cries for you
I feel brand new
If you're ready, then go with me
Laureen, I ever hold you
Laureen, I never told you
Tonight's the night I've fallen in love again
Laureen, I wanna kiss you
Laureen, I ever miss you
Tonight's the night I've fallen in love again
Don't let the stars get in your eyes
Oh, I want to take you higher
Another day in paradise
A woman is a man's desire
Good love can never die
Just one more try
If you're ready, then go with me
Laureen, I ever hold you
Laureen, I never told you
Tonight's the night I've fallen in love again
Laureen, I wanna kiss you
Laureen, I ever miss you
Tonight's the night I've fallen in love again
