

# Dead Inside – Nita Strauss (ft. David Draiman of Disturbed)

I see it crumbling  
Right in front of me  
There's no stopping it  
So get that out of your mind  
You can't run from it  
You know you never had a choice  
And now you'd better make your peace with it  
It's unravelling  
Become clear to me  
A new terrorism  
Taking over our lives  
The beast's hungering  
It keeps ravening  
There's no remedy  
And do we even want it now  
Look in my eyes  
And know that I  
Am dead inside  
From the countless lies  
That have eaten us alive  
I know why  
I'm dead inside  
You're dead inside  
We're dead inside  
Can't handle it  
Collective punishment  
Who are these maniacs taking over our lives  
The old strategy  
Destroy liberty  
A modern tragedy, and can we be forgiven?  
Swift consequence  
Without evidence  
Losing relevance?  
Hate will keep you alive  
The beast's hungering

It keeps ravening  
Have you ever thought that maybe  
We deserve it now  
Look in my eyes  
And know that I  
Am dead inside  
From the countless lies  
That have eaten us alive  
I know why  
I'm dead inside  
You're dead inside  
We're dead inside  
Will you bury the dead  
Hear what I said  
Time to bury the dead  
Remember what I said  
I know I  
Am dead inside  
From the countless lies  
That have eaten us alive  
And now we all know why  
I'm dead inside  
You're dead inside  
We're dead inside  
I know I  
Am dead inside  
From the countless lies  
That have eaten us alive  
And now we all know why  
I'm dead inside  
You're dead inside  
We're dead inside
