

I Got So High That I Saw Jesus – Noah Cyrus

I got so high that I saw Jesus
He said, "It's all gonna be okay
You just need me in your heart"
Tennessee whiskey and love
I got so high that I saw Jesus
Yeah, they talk about the rivers running dry
How pretty soon there won't be any water
Left to turn to wine
Like a drunkard at the wedding
Blindly raising Armageddon, so
I'm a getting high
And I got so high that I saw Jesus
He said, "It's all gonna be okay
You just need me in your heart"
Tennessee whiskey and love
I got so high that I saw Jesus (Jesus)
Yeah, Joseph lost his job to a machine
And Mary lost her mind to lines of code you can't see
And if the angels or the AI
Are gonna burn this whole thing down, well
I'm gonna burn one down right now
I got so high that I saw Jesus (Oh, yeah)
He said, "It's all gonna be okay" (All gonna be)
"You just need me in your heart"
Tennessee whiskey and love
I got so high that I saw Jesus
And sometimes it hurts too much to look
Like Moses and the burning bush
I tried to turn away, but I could see
And he said, "Fathers, don't forsake your sons
There's so much kingdom left to come
Just let it fill your lungs before you leave"
And I got so high that I saw Jesus
He said, "It's all gonna be okay
You just need me in your heart"
Tennessee whiskey and love I got so high that I saw Jesus

I got so high that I saw Jesus
I got so high that I saw Jesus
