A World Without Danger – Noam Kaniel

There is a world that is virtual and different
It can be so cold, makes us stand up for what's right
Our hope to the live, if you reset it to the start

Here we are, going far to save all that we love
If we give all we've got, we will make it through
Here we are, like a star,
Shining bright on your world today
Make evil go away

Code Lyoko, we'll withstand it all
Code Lyoko, be there when you call
Code Lyoko, we will stand real tall
Code Lyoko, stronger after all

A world of machines, it can shadow human nature
And all that we need is the way to find the answer
And one thing is sure, you can count on us for good

Here we are, going far to save all that we love
If we give all we've got, we will make it through
Here we are, like a star,
Shining bright on your world today
Make evil go away

Code Lyoko, we'll withstand it all
Code Lyoko, be there when you call
Code Lyoko, we will stand real tall
Code Lyoko, stronger after all

We'll do our best to never let you down
We're up to the test to turn this world around

Here we are, going far to save all that we love
If we give all we've got, we will make it through
Here we are, like a star,

Shining bright on your world today
Make evil go away

Here we are, going far to save all that we love
If we give all we've got, we will make it through
Here we are, like a star,
Shining bright on your world today
Make evil go away
