Blackbird - Norma John

Blackbird blackbird don't sing to me

Don't sing below my window

Fly somewhere else don't bother me

Don't sing below my window

You sang when he was in my bed

You sang when my heart sang

Now you remind me of something I'll never have

So blackbird don't sing

Blackbird don't sing

Blackbird blackbird I am now alone

Somewhere else go make your home

Don't nestle here go find lovers of your own

I am now alone

You sang when he was in my bed

You sang when my heart sang

Now you remind me of something I'll never have

So blackbird don't sing

Blackbird don't sing

Blackbird don't sing

You sang when he was in my bed

You sang when my heart sang

Now you remind me of something I'll never have

So blackbird don't sing

Blackbird don't sing

Blackbird don't sing
