

# Forever & Ever More – Nothing but thieves

Down in the gutter and looking for trouble  
Or something to that effect  
And there she was,  
A metal cross ironically 'round her neck  
And then she kissed me on the lips  
And a fever came without a warning  
Said give me a holla  
And then I will follow you down into the dark  
And I was left in the depths surrounding her feral heart  
Oh, there's just something about the sun  
That seems so very, very boring  
What did you think when you made me this way?  
What did you think when you love me this way?  
Hold me so close when we get to the gates  
And we'll be together forever and ever and more  
If you desire then you be my fire  
And I'll be your gasoline  
I'm getting sick of all the kicks this city is selling me  
And she said "hey, let's get away  
And I'll be your new religion, baby"  
What did you think when you made me this way?  
What did you think when you love me this way?  
Hold me so close when we get to the gates  
And we'll be together forever and ever and more  
Hold me close  
My little Draculove  
Wrap your arms around me  
My Draculove  
My Draculove  
Uhh, what did you think when you made me this way?  
What did you think when you love me this way?  
Hold me so close when we get to the gates  
And we'll be together forever and ever and more
