

Lover, please stay – Nothing but thieves

Lover, I know youre weary
Theres a time from the night
Lover come to the kitchen floor
Towels are cold, so Am I
So take from me,
What you want, what you need
Take from me, whatever you want, whatever you need
But lover, please stay with me
Lover, I feel your sorrow
Pouirin out of your skin
I don't wanna be alone
If I end tonight, I'll always be
So take from me,
What you want, what you need
Take from me,
Whatever you want, whatever you need
But lover, please stay with me
I can see you, I can feel
Sifting through my hands
I can taste you, I can taste you
Slippin through my hands
Take from me, what you want, what you need
Take from me, whatever you want
My lover please stay with me
Ahh My lover, please stay with me
