

# Lover, please stay – Nothing but thieves

Lover, I know you're weary  
Eyes are tired from the night  
Lover, come to the kitchen floor  
Tiles are cold,  
So am I

So take from me,  
What you want,  
What you need  
Take from me,  
Whatever you want,  
Whatever you need  
But lover, please stay with me

Lover, I feel your sorrow  
Pouring out of your skin  
And I don't wanna be alone  
If I'm tonight,  
I'll always be

So take from me,  
What you want,  
What you need  
Take from me,  
Whatever you want,  
Whatever you need  
But lover, please stay with me

And I can see you,  
I can feel you  
Slipping through my hands  
Oh, I can taste you,  
I can taste you  
Slipping through my hands  
Take from me,  
What you want,

What you need  
Take from me,  
Whatever you want  
My lover please stay with me  
Oh, my lover, please stay with me
