

# Leave All Behind – NUSH3N feat. Agnieszka Antos

Take a breath of fresh air  
Let go of your cares  
Forget all the pain  
And the things that you fear  
Leave everything behind, open your eyes  
Set your soul free and find paradise  
Leave all behind, free your mind  
Leave your worries behind, find peace of mind  
Let your spirit soar, through the sky  
Find the happiness you've been looking for  
And fly  
Cast away the sorrow,  
Don't worry 'bout tomorrow  
Let it all go, and never look back  
Find a place where you belong,  
Let your spirit be strong  
And never be afraid to take the track  
Take a deep breath and open up your heart  
It's time to find the courage  
And make a new start  
You can find the strength to face your fears  
And make a new life away from here  
Leave all behind, free your mind  
Leave your worries behind, find peace of mind  
Let your spirit soar, through the sky  
Find the happiness you've been looking for  
And fly
