Higher Ground (Reprise) – ODESZA

Ain't no surprise
That I can't sleep tonight
My only vice
Is standing by your side
So won't you love me better
I'm waiting here
I need you now
Gravity can't hold us down
So just take me there
To higher ground
Save me
I'm holding onto you
My sun is fading
I'm falling into blue
Why don't you save me
My blood is running cold
So lift me up
And get me to higher ground
Would you give me shelter
I need you now
If you lead, I'll follow
I'm reaching out
So won't you love me better
I'm waiting here
I need you now
Gravity can't hold us down
So just take me there
So won't you love me better
I'm waiting here
I need you now
Gravity can't hold us down
So just take me there
To higher ground
Save me
I'm holding onto you
My sun is fading

I'm falling into blue
Why don't you save me
My blood is running cold
So lift me up
And get me to higher ground
