

Don't You Try – Ola Antoniak

Don't you try
Don't you even try to forget me
Take away all my sadness
And never come back
It's hard to believe
You had a chance to keep me
It's so hard to believe
It will never come back

To the light I will go now forever
I have the power to fight
No more hero
No more hero by my side, mhmm
The light is in me
My heart still beats
Oh no, no, no more tears
No, no, no more lies
My world is not falling apart

Don't you try
Don't you even try to forget me
Take away all my sadness
And never come back
It's hard to believe
You had a chance to keep me
It's so hard to believe
It will never come back

Don't try, don't try to forget me
I have the power to fight
No more hero
I don't need a hero
By my side, mhmm

Unforgettable pain
But not the same

No more fear in my heart
Strong and ready to fight
My world is not falling apart

Don't you try
Don't you even try to forget me
Take away all my sadness
And never come back, back, back
It's hard to believe
You had a chance to keep me
It's so hard to believe
It will never come back
