

# Twist of faith – Olivia Newton John

Do we deserve a second chance?  
How did we fall into this circumstance?  
We weren't so straight and narrow  
This is much more than we deserve  
A higher voice has called the tune  
Two hearts that lost the beat will now resume  
The gift of life extension  
By divine intervention  
Ooh  
It's gotta be a strange twist of fate  
Telling me that Heaven can wait  
Telling me to get it right this time  
Life doesn't mean a thing  
Without the love you bring  
Love is what we've found  
The second time around  
Don't understand what's going on  
Woke up this morning all the hurt was gone  
This is a new beginning  
I'm back in the land of the living  
It's gotta be a strange twist of fate  
Telling me that Heaven can wait  
And I'm gonna get it right this time  
Life (life) doesn't mean a thing  
Without the love you bring  
Love is what we've found  
The second time around  
Oh, oh  
It's gotta be a strange twist of fate  
Telling me that Heaven can wait  
Oh, I'm gonna get it right this time  
Life (life) doesn't mean a thing  
Without the love you bring  
A love is what we've found  
The second time around  
It's gotta be a strange twist of fate

Telling me that Heaven can wait  
You know I'm gonna get it right  
I'm gonna make it work this time  
Life, life doesn't mean a thing  
(doesn't mean a thing)  
Without the love you bring (without the love)  
Love is what we've found  
(without the love we've found)  
The second time around  
It's gotta be a strange twist of fate  
Telling me that Heaven can wait  
Life (life) doesn't mean a thing
