

Better than this – Paloma Faith

When the lights in my street go out and
All the people lie sleeping under clouds and
They're dreaming of better than this
Then my brother calls me and he's sayin'
Oh, I can hear the angels praying
That we can do better than this
'Cause I saw a mountain,
I thought it's too high
I heard the birds whisper, "You can't fly"
I saw you and I knew I can do
Better than this, better than this
I heard a language I thought I can't speak
I saw an ocean I thought was too deep
I see you and I know we can do
Better than this, better than this
And I know you'll take me anywhere I wanna go
And I know you'll make me
Learn everything that I wanna know
The truth of it is,
it doesn't get better than this
When the riddles and the puzzles find me
I wanna let the darkness hide me
But I know there is better than this
And I'm shouting 'cause I see my failings
My fears, my faults, I'm raging
'Cause I know that I'm better than this
'Cause I saw a mountain,
I thought it's too high
I heard the birds whisper, "You can't fly"
I saw you and I knew I can do
Better than this, better than this
I heard a language I thought I can't speak
I saw an ocean I thought was too deep
I see you and I know we can do
Better than this, better than this
And I know you'll take me anywhere I wanna go

And I know you'll make me
Learn everything that I wanna know
The truth of it is,
It doesn't get better than this
The truth of it is,
It doesn't get better than this
Only when we discover,
That's when we find each other
That's when we both get better than this
