Erased - Paradise Lost

I don't owe anything I don't owe anyone Shoot pride for all it's worth I don't belong I don't owe anyone I don't owe anyone In a situation now That I could not repair I assert myself to sleep Show others that I've cared How cold is this poor life Lay ashes at my grave If it takes me away from you A subtle gesture I don't know anyone (cherish my religion) I don't know anyone (faith is only fiction) I don't know anyone (cherish my religion) I don't know anyone (faith is only fiction) This is erased I promise not a trace This is erased I promise not a trace no delay This is erased I promise not a trace This is erased I promise not a trace no delay I don't know anyone (cherish my religion) I don't know anyone (faith is only fiction) I don't know anyone (cherish my religion)
