

Permanent Solution – Paradise Lost

For the end, the time I'm feeling host
And I'm turning it around for you
Lord I feel I tried much more than most
And I've done the things I wanted to
It's that useless contribution
That leads to a solution for me
You don't need to search for answers
Of hide behind Romances again
For that very sign to leave this world
And I'm turning it around for you
On the edge of life it seems so low
And you've done the things you wanted to
It's that finer concentration
Of total liberation for me
And the more that I believe in
The less that I'm receiving instead
It's that useless contribution
That leads to a solution for me
You don't need to search for answers
Of hide behind Romances again
It's that finer concentration
Of total liberation for me
And the more that I believe in
The less that I'm receiving instead
