## Live and let die – Paul MacCartney

When you were young and your heart Was an open book You used to say Live and let live You know you did You know you did You know you did But if this ever-changing world in Which we live in Makes you give in And cry Say live and let die Live and let Die Live and let die Live and let die What does it matter to you? When you Gotta job to do You gotta do it well You gotta give the other fellow hell You used to say live and let live You know you did You know you did You know you did But if this Ever-changing world in which we Live in Makes you give in and cry Say Live and let die
