

# Sign of the wolf – Pentagram

A lone soul at night  
Sits and bays at the moon  
Though sometimes he's a man it's a Pentagram  
Shogun blasts as  
He runs with the wind  
But he just can't win it's the Pentagram  
And now don't know how  
But it's happening to me  
Got the love from above  
But it's happening to me  
Black cloud hang  
And it just won't leave  
Though he tries to believe it's a Pentagram  
Hard to conceive  
And he wants to perceive  
But he's destined to grieve  
It's the Pentagram  
Now don't know but it's happening to me  
Got the love from above  
But it's happening to me  
I can't turn back now  
Stories unfold but  
They've all been told  
When he sold his soul to the Pentagram  
And to end his life  
Though the silver is old  
He will reach his goal by the Pentagram  
And now don't know how  
But it's happening to me  
Got the love from above  
But it's happening to me  
Tell me one more time  
Now don't know how  
But it's happening to me  
Got the love from above  
But it's happening to me

It's alright  
I can't turn back now  
Cause it's the sign of the wolf
