

No Way Out – Phantom Of The Blue

Look at the stay you with
Nobody to help you through the night
Theres a make you blind
Picture of you and me
How deep in your mind and your memorie
Standing you night of the night
No way out of my life
I'm the lover you need
No way out of my life
Love is your destiny
You better change your mind
And I find your way back home
Uuu don't waste time
Don't waste time
Lonely the day go by
Stop keeping the way of the precious time
Don't let the foolish prize
Follow you heart and there
Is always a way of the misery
Killing in night of the night
No way out of my life
I'm the lover you need
No way out of my life
Love is your destiny
You better change your mind
And I find your way back home
Uuu don't waste time
No way out of my life
You better change your mind
And I find your way back home
Uuu don't waste time
No way out of my life
The look at the stay you with
Nobody to drive a tears you cry
Lonely the spring you blown
The lying the weak in always

Deep in the night on the telephone
Theres a lonely apart
No way out of my life
No way out of my life
I'm the lover you need
No way out of my life
Love is your destiny
You better change your mind
And I find your way back home
Uuu don't waste time
No way out of my life
O no
No way out of my life
No way out of my life
