

Doctor – Pharell Williams, Miley Cyrus

I could be your doctor
And I could be your nurse
I think I see the problem
It's only gon' get worse
A midnight medication
Just show me where it hurts
I need to rock you, baby
Before your body bursts
Let me work it out (Oh)
Let me work it out, oh-yeah
Let, let mamma work you out (Uh, ah)
You wanna work it out? (Oh, yeah, ow)
You're my lover (You're my lover)
I show you sympathy
Take your sugar (Take your sugar)
And pour it into me
They say bygones be bygones
And throw it on the way
You're my lover
I wanna hear you say
I feel like working it out, yeah
If that's something you wanna do (Uh, uh)
Yeah, I feel like working it out
Baby if you want me to
I could be your doctor
And I could be your nurse
I think I see the problem
It's only gon' get worse (Uh, uh)
A midnight medication
Just show me where it hurts (Uh)
I need to rock you, baby
Before your body bursts
Let me work it out (Let me, let me, ah,
let me, let me, let me)
Let me work it out
(Let me, let me, ah, let me,

let me, let me)
Let, let mamma work you out
(Let me, let me, ah, let me, let me, let me)
You wanna work it out?
(Wanna work it out, yeah)
Are you on the fence?
Stop playing on the side
Are you on the fence?
Don't waste my damn time
Are you on the fence?
I'll slip but I won't slide
Don't gotta be forever
Just together for the night
I feel like working it out
If that's something you wanna do
Yeah, I feel like working it out
Baby if you want me to
I could be your doctor
(I could be your doctor)
And I could be your nurse
I think I see the problem
It's only gon' get worse (Uh, uh)
A midnight medication
Just show me where it hurts (Uh, uh)
I need to rock you, baby
Before your body bursts
Let me work it out (Let me, let me,
Ah, let me, let me, let me)
Let me work it out (Let me work it out, yeah)
Let, let mamma work you out
(Let me, let me, ah,
let me, let me, let me)
You wanna work it out?
(Wanna work it out, yeah)
Let me, let me, ah, let me, let me, let me
Let me, let me, ah, let me, let me, let me
Let me, let me, ah, let me, let me, let me
You wanna work it out
(Wanna work it out, yeah)
