

# Coming home – Pixie Lott ft. Jason Derulo

I know, usually I'm always late  
Tonight I'm gonna be on time  
I'm coming home straight after work  
So you can have me all to yourself  
We'll be alone, just me and you  
So no one interrupts what we do  
Pa pa la la la la  
Pa pa la la la la  
Pa pa la la la la  
You say, where are you going?  
In the night, I'm awake, 'cause  
My body's not close to you  
But you don't call me  
Out of respect you, can bet that  
You'll be waiting home for me, yeah  
I'm out for the whole day  
Try'na do it my way, monday to friday  
Gotta make my baby understand  
I do this for you boy  
But you deserve the time  
I'm coming home straight after work  
So you can have me all to yourself  
We'll be alone, just me and you  
So no one interrupts what we do  
I'm coming home straight after work  
So you can have me under your spell  
A-a-all night, a-a-all day  
So you can have me all to yourself  
Pa pa la la la la  
Pa pa la la la la  
Pa pa la la la la  
You're always complaining, in the morning  
I wake from my sleep  
Brush my teeth and leave  
And now that I'm famous  
It's kinda hard making time

For the one that means most to me, yeah

I'm out for the whole day

Try'na do it my way, monday to friday

Gotta make my baby understand

I do it for you girl

'Cause you deserve the time

I'm coming home straight after work

So you can have me all to yourself

We'll be alone just me and you

So no one interrupts what we do

I'm coming home straight after work

So you can have me under your spell

A-a-all night, a-a-all day

So you can have me all to yourself

When I'm away I miss my baby

Yeah I'm gone with half my heart

God knows I must be crazy

For loving from afar

But tonight it's gonna be different

'cause I'm coming home

I'm coming home straight after work

So you can have me all to yourself

We'll be alone just me and you

So no one interrupts what we do

I'm coming home straight after work

So you can have me under your spell

A-a-all night, a-a-all day

All night and day

So you can have me all to yourself

I'm coming home straight after work

So you can have me all to yourself

We'll be alone just me and you

So no one interrupts what we do

I'm coming home straight after work

So you can have me under your spell

A-a-all night, a-a-all day

All night and day

So you can have me all to yourself

Have me all to yourself, all to yourself
