I used to give up so easily
I didn't care if the love was cheap
But when you breathe on top of me
I'm living in, I'm living in a five-star
Dream White table cloths in coffee shops
Top of the line at any cost
Whatever it takes to make you mine
Anything to feel this feeling all the time
You're showin' me the finest life
And it's something that rubs off on me
A love that keeps me out all night
A kiss becomes a memory
Oh, you're showing me the finest life
And the feeling is a novelty
Cause your love is one of a kind
Baby you're like luxury Movin' your fingers
Across my skin
Play me like the strings on a violin
Don't ever let the sound of the music end
Anything to make my body to it again You're
Showin' me the finest life
And it's something that rubs off on me
A love that keeps me out all night
A kiss becomes a memory
Oh, you're showing me the finest life
And the feeling is a novelty
Cause your love is one of a kind
Baby you're like luxury Takin' me over
Bendin' my under
You're gonna break like no other
Takin' me over
Bendin' my under
You're gonna break like no other You're
Showin' me the finest life
And it's something that rubs off on me
A love that keeps me out all night

A vintage television set sits on a sandy beach. The screen displays a colorful, abstract, wavy pattern. The background is a dramatic sky with large, white, fluffy clouds over a dark blue ocean. The overall image has a soft, slightly grainy texture, characteristic of a film or a stylized digital background.
