

# Dopamine – Purple disco Machine Feta. Eyelar

Put my life on the line  
It's the only way I'll ever feel alive  
Kiss the rose, love is blind  
I don't care about the thorns  
If you're my type  
Oh, you got me wide awake  
When you keep living in my mind  
Heartbeat, heartbeat  
Start that beat again  
I need you night and day  
'Cause only you can get me high  
Heartbeat, heartbeat  
You make all the dopa-dopamine  
In my bloodstream the way you touch me  
I'm loving the feeling of dopa-dopamine  
In my bloodstream, let it control me  
I'm loving the feeling  
That dopamine  
Start that beat again  
Running wild, keep me sweet  
'Cause I like it when you take control of me  
When your love runs so deep  
It's like sugar in my veins and I can't sleep  
No, no, you got me wide awake  
When you keep living in my mind  
Heartbeat, heartbeat  
Start that beat again  
I need you night and day  
'Cause only you can get me high  
Heartbeat, heartbeat  
You make all the dopa-dopamine  
In my bloodstream  
The way you touch me  
I'm loving the feeling of dopa-dopamine  
In my bloodstream, let it control me  
I'm loving the feeling

That dopamine  
Start that beat again  
That dopamine  
Start that beat again  
Yeah  
(That dopamine, start that beat again)  
Ah yeah  
(That dopamine, start that beat again)  
That dopamine (start that beat again)  
That dopamine (start that beat again)  
That dopamine (start that beat again)  
That dopamine (start that beat again)  
That dopamine (start that beat again)  
That dopamine (start that beat again)  
That dopamine (start that beat again)  
That dopamine (start that beat again)  
Beat again  
You make all the dopa-dopamine  
In my bloodstream  
The way you touch me  
I'm loving the feeling of dopa-dopamine  
In my bloodstream, let it control me  
I'm loving the feeling  
That dopamine  
Start that beat again  
That dopamine  
Start that beat again  
Start that beat again  
Start that beat again  
Start that beat again  
That dopamine  
Start that beat again  
Start that beat again  
Start that beat again  
That dopamine  
Start that beat again
