

# Nimue – Quo Vadis

With every single blinkin'  
With every thought I'm thinkin'  
With every toil I'm coming through  
I feel I can get higher  
By power of desire  
Which I can only owe to you  
With every passing hour  
By unstoppable fire  
Which purifies my nasty soul  
I feel I am immortal  
I feel I'll never fall down  
If you will let me stay by you  
Youyou make me stronger  
Make me colder  
Deep inside  
Youyou make me filthy  
Make me guilty  
Make me blind  
I'm hypnotized  
By charm of your eyes  
But I've found the lies  
Hidden beetwen the lines  
We need to stop  
We have to live on  
I'm hypnotized  
By charm of your eyes  
But I've found the lies  
Hidden beetwen the lines  
We need to stop  
We have to live on  
By morning resurection  
With superior direction  
Avoid your chilly empty eyes  
I'm like the faded colour  
I'm like the wilted flower  
But I know I am happy now

Youyou make me stronger  
Make me colder  
Deep inside  
Youyou make me filthy  
Make me guilty  
Make me blind  
I'm hypnotized  
By charm of your eyes  
But I've found the lies  
Hidden beetwen the lines  
We need to stop  
We have to live on  
I'm hypnotized  
By charm of your eyes  
But I've found the lies  
Hidden beetwen the lines  
We need to stop  
We have to live on
