Decks Dark - Radiohead

Then in your life, there comes the darkness There's a spacecraft blocking out the sky And there's nowhere to hide

- You run to the back and you cover your ears But it's the loudest sound you've ever heard

And are we trapped? Rag-doll, cloth people

We are helpless to resist

Into our darkest hour

But it was just a laugh, just a laugh

Just a laugh, just a laugh

Even at this angle

And so we crumble

A ten ton head, made of wet sand

This dread circumference

You gotta be kidding me

The grass grows over me

Your face in the glass, in the glass

It was just a laugh, just a laugh

It's whatever you say it is

Split infinity

Then into your life, there comes a darkness

And a spacecraft blocking out the sky

And there's nowhere to hide

- You run to the back and you cover your ears

But it's the loudest sound you've ever heard

Into your darkest hour

When you've had enough of me

When you've had enough of me

Sweet darling

When you've had enough of me

When you've had enough of me

Sweet darling

Sweet darling

Sweet darling

Sweet darling
