

# Red Flags – Tom Cardy & Montaigne

The date started off so well  
Begin my night  
Not expecting the fright of my life  
She was perfect from what I could tell  
How could I not see  
The danger right in front of me?  
My favourite food is fish  
Baby, that's my favourite too  
I love cartoon dogs  
Baby, I love Scooby-Doo  
Hey, girl, what's your favourite film?  
She said,  
"The best movie of all  
A masterpiece of art called"  
Human Centipede, Human Centipede  
I think that I'm gonna get murdered tonight  
Human Centipede, not ironically  
She said,  
"The costume design was a highlight"  
I like it for the plot  
Tell me what the plot's about  
German doctor sews three people ass to mouth  
Cool  
Human Centipede,  
Please, God, save me  
I think that's a red flag,  
I don't want to get stabbed  
She said,  
"Human Centipede is a tour de force"  
I think,  
"Holy shit, I'm gonna be the main course"  
She said,  
"I admire the narrative of character growth"  
I try to get the waiter's attention  
By blinkin' in Morse code  
Why are you blinking so much?

I've got something in my eye  
Here, let me get it out  
No, thank you, I don't wanna die  
Bonjour, sir was blinking at me  
Is this because your date is a freak?  
No  
Very good then, bon appétit  
Stop hiding  
Behind your silly made-up red flag  
To not take a chance  
On the best relationship you never had  
Maybe you're right,  
And I'm looking for excuses  
My heart's got bruises,  
But I'm ready to choose this love  
You could be my world, the love of my life  
One day, we'll get married  
And be husband and wife  
With a tasteful ceremony  
And the wedding of our dreams!  
Only if the wedding is themed!  
Tell me what the theme's gonna be!  
Human Centipede, Human Centipede  
That way, we could save on the catering bill  
Human Centipede, only one mouth to feed  
If you are the best man, you know the deal  
Pucker Up  
I can finally open myself up to love!  
I can finally sew a mouth to a butt!  
Human Centipede  
Human Centipede
