

# You've Got Time – Regina Spektor

The animals, the animals  
Trapped, trapped, trapped 'til the cage is full  
The cage is full, stay awake  
In the dark, count mistakes  
The light was off but now it's on  
Searching underground for a bit of sun  
The sun is out, the day is new  
And everyone is waiting, waiting on you

And you've got time  
And you've got time

Think of all the roads  
Think of all their crossings  
Taking steps is easy  
Standing still is hard  
Remember all their faces  
Remember all their voices  
Everything is different  
The second time around

The animals, the animals  
Trapped, trapped, trapped 'til the cage is full  
The cage is full, stay awake  
In the dark, count mistakes  
The light was off but now it's on  
Searching underground for a bit of sun  
The sun is out, the day is new  
And everyone is waiting, waiting on you

And you've got time  
And you've got time  
And you've got time
