## We Got Used To Us – Riverside

When I scroll back through our recent days Try to understand, how we could forget We made a promise to one another That nothing would, ever break what we had Now we never talk when we fall apart We never talk when we fall apart We pretend we're OK, surrounding ourselves With one-way friendships And so-called friends I know we got used to new us And I don't want to be there I don't want to be there where we are I know we got used to new life And I don't want to be there No, I don't want to be there where we are Silence fallen between All the doors are locked All the words unsaid And we're still afraid of time Started to keep ourselves At a distance that we could control Not too close, not too far Now we never talk when we fall apart We just never talk when we fall apart We pretend we're OK By filling up our inner space With little hates and so-called love I know we got used to new us And I don't want to be there I don't want to be there where we are I know we got used to new life And I don't want to be there No, I don't want to be there where we are I know we got used to new us And I don't want to be there I don't want to be there where we are

I don't want to be there I don't want to be there where we are So walk away with me
