## **Eternity - Robbie Williams**

Close your eyes so you don't feel them They don't need to see you cry I can't promise I will heal you But if you want to I will try Sing this summer serenade The past is done, we've been betrayed It's true Some might say the truth will out But I believe without a doubt In you You were there for summer dreaming And you gave me what I need And I hope you find your freedom For eternity For eternity Yesterday when we were walking You talked about your mom and dad What they did that made you happy What they did that made you sad We sat and watched the sun go down Then picked a star before we lost The moon Youth is wasted on the young Before you know it's come and gone Too soon You were there for summer dreaming And you gave me what I need And I hope you find your freedom For eternity For eternity For eternity I sing the summer serenade The past is done, we've been betrayed its true Youth is wasted on the young

Before you know its come and gone

too soon
You were there for summer dreaming
And you are a friend indeed
And I hope you find your freedom
For eternity
You were there for summer dreaming
And you are a friend indeed
And I know you find your freedom
Eventually

For eternity
