

Sun Goes Down – Robin Schulz & Jasmine Thompson

Nothing's ever what we expect
But they keep asking where we're going next
All we're chasing is the sunset
Got my mind on you
Doesn't matter where we are are are are
Doesn't matter where we are are are ar-are
Doesn't matter, no
If there's a moment where it's perfect
We'll carve our names
As the sun goes down Hey As

The sun goes down
Hey
As the sun goes down
As the sun goes down
Doesn't matter where we are are are are
Doesn't matter where we are are are ar-are
Doesn't matter now
You are so lonely now [x2]
Nothing's ever what we expect
But they keep asking where we're going next
All we're chasing is the sunset
Got my mind on you
Doesn't matter where we are are are are
Doesn't matter where we are are are ar-are
Doesn't matter, no
If there's a moment where it's perfect
We'll carve our names
As the sun goes down Hey As the sun goes down
Hey
You are so lonely now [x2]
As the sun goes down
