

# Overpowered – Róisín Murphy

When I think that I'm over you  
I'm overpowered  
Your data my data  
The chromosomes match  
Exact as in matter  
A matter of fact  
These amaranth feelings  
A cognitive state  
Need the love object  
To reciprocate  
When I think that I'm over you  
I'm overpowered  
It's long overdue  
I'm overpowered  
When I think that I'm over you  
I'm overpowered  
It's long overdue  
I'm overpowered  
As science struggles on to try to explain  
Oxy-toxin's flowing ever into my brain  
As science struggles on to try to explain  
Oxy-toxin's flowing ever into my brain  
A chemical reason  
If reason's your game  
A chemical needing  
Is there in the brain  
With preprogrammed meanings  
Like a little more pep  
Alien feelings  
We have to accept  
When I think that I'm over you  
I'm overpowered  
It's long overdue  
I'm overpowered  
When I think that I'm over you  
I'm overpowered

It's long overdue  
I'm overpowered  
As science struggles on to try to explain  
Oxy-toxin's flowing ever into my brain  
As science struggles on to try to explain  
Oxy-toxin's flowing ever into my brain  
(I'm overpowered)
