

Overpowered – Róisín Murphy

When I think that I'm over you
I'm overpowered
Your data my data
The chromosomes match
Exact as in matter
A matter of fact
These amaranth feelings
A cognitive state
Need the love object
To reciprocate
When I think that I'm over you
I'm overpowered
It's long overdue
I'm overpowered
When I think that I'm over you
I'm overpowered
It's long overdue
I'm overpowered
As science struggles on to try to explain
Oxy-toxin's flowing ever into my brain
As science struggles on to try to explain
Oxy-toxin's flowing ever into my brain
A chemical reason
If reason's your game
A chemical needing
Is there in the brain
With preprogrammed meanings
Like a little more pep
Alien feelings
We have to accept
When I think that I'm over you
I'm overpowered
It's long overdue
I'm overpowered
When I think that I'm over you
I'm overpowered

It's long overdue
I'm overpowered
As science struggles on to try to explain
Oxy-toxin's flowing ever into my brain
As science struggles on to try to explain
Oxy-toxin's flowing ever into my brain
(I'm overpowered)
