

# Lights Out – Royal Blood

Every time I'm with it alone  
It picks me up  
You just send me down  
I can feel it rushing under my skin  
You're a cage won't you let me in?  
On my toes  
Lock the door  
Pretty face  
Through the walls  
Don't know if I'd be so sure again

My eyes are still burning red  
So turn the lights out  
You're not so hard to forget  
With all the lights out

Every time I'm stuck in the ground  
Spin me round, won't you spin me round  
You're a void, a crack in the mirror  
See me now, if you could see me now  
You slipped through  
The night  
Then walked out  
Skin tight  
But you don't matter that much to me  
No you don't matter that much to me

My eyes are still burning red  
So turn the lights out  
You're not so hard to forget  
With all the lights out  
So turn the lights out  
Just turn the lights out

My eyes are still burning red  
So turn the lights out

You're not so hard to forget  
With all the lights out
