

What i Realy Need – RPWL

You can fly across the ocean
In eight hours every day
You can drive over the mountains,
Sail the seven seas
You can buy a house in Texas,
A brand new car from Japan
If you want you buy a woman
Or a man because you can
Two holidays a year,
Cosy and fenced off from the poor
You may need much more insurance
To be safe, to be sure
But where do I get
Tell me where do I get
What I really need
Try to earn some extra money
With access at any time
A dog, a cat, a talking parrot,
Just a click and they'll be mine
But anything they make you dream of
And all the things they make you buy
The whole business with our happiness
Is nothing but a lie
But where do I get
Tell me where do I get
What I really need
What I really need
Where do I get
Tell me where do I get
What I really need
What I really need
Where do I get
Tell me where do I get
What I really need
What I really need
