

Natural – S club 7

Woo ahha

Oh yeah

Loving you is not just luck or illusion

It's in the make up of our DNA

Its not by chance we make

The perfect solution

Don't fight it baby,

You know that it's just destiny's way

Baby loving you,

Comes easily to me

It's what I'm living for,

It's all in the chemistry

Baby loving you, is how it's meant to be,

It's something that is all so natural to me

Natural

We got the answers but there's no explanation

We've got each other baby come what may

It's in the sciences genetically proven

'Cause when you touch me the reaction,it just

Blows me away

Baby loving you comes easily to me

It's what I'm living for,

It's all in the chemistry

Baby loving you, is how it's meant to be

It's something that is all so natural to me

Baby loving you comes easily to me

It's what I'm living for,

It's all in the chemistry

Baby loving you, is how it's meant to be

It's something that is all so natural to me

Natural

Turn off the light,lay your head next to mine

Take it slowly, a step at a time

Come on get close, closer to me

It's all so natural

It's all so easy to see

Baby, loving you
Comes easily to me
It's what I'm living for,
It's all in the chemistry
Baby loving you, is how it's meant to be
It's something that is all so natural to me
Baby, loving you
Comes easily to me
It's what I'm living for,
It's all in the chemistry
Baby loving you, is how it's meant to be
It's something that is all so natural to me
Baby, loving you
Comes easily to me
