

Panzer Battalion – Sabaton

Under this sun no shadows will fall
Piercing our eyes as we charge
An armoured battalion on course to the East
Closing the end of its march
This time we're here to finish a job
Started a decade ago
Driving the animals out of their holes
To bury them 6 feet below
Armoured tanks of mass destruction
Killers in the east
Rats who dares to stand before us
Feel our guns go live
Death in the shape of a panzer battalion
Insect of terror
Don't run face your fate like a man
Cannot outrun our panzer battalion
Thousands of tons of armour and guns
Making its way through the sand
Our panzer battalion is back for revenge
Artillery sweeping the land
First strike is ours no mercy is shown
There's rivers of blood in our track
Breaking their lines
Of defence with our tanks
Infantry watching our back
Blow their SAM sites clear for air strike
Ready for the storm
Minefields swept there's no surrender
Feel our napalm burn
Death in the shape of a panzer battalion
Insect of terror
Don't run face your fate like a man
Cannot outrun our panzer battalion
Death in the shape of a panzer battalion
Insect of terror
Don't run face your fate like a man

Cannot outrun our panzer battalion
Under this sun no shadows will fall
Piercing our eyes as we charge
An armoured battalion on course to the East
Has reached the end of its march
Armoured tanks of mass destruction
Killers in the east
Rats who dares to stand before us
Feel our guns go live
Panzer Battalion
Insect of terror
Don't run face your fate like a man Yeah
Panzer Battalion
Yeah!
