

# Rise of Evil – Sabaton

A nation in despair, weakened by war, defeated  
Lost their pride in Versailles  
A former prisoner, with a vision or a delusion  
Rise to power in the reich

Rebuilding an army  
Make the nation proud  
Disregarding the treaty  
Secret plans for "Lebensraum"  
Start the Holocaust

The reich will rise  
Propaganda, the reich will rise  
To last a thousand years

Burning books to spread anti-semite propaganda  
Who will stop the madmans reign?  
Night of broken glass, send the jews to Dachau death camp  
On a path to certain death

The "Anschluss" completed  
On the brink of war  
Act brutal with no pity  
Be harsh, show no remorse  
Start the warmachine

The reich will rise  
Propaganda, the reich will rise  
To last a thousand years

I see the evil rising  
The Rise of Evil!

In the last days of peace  
Europe holding it's breath  
An invasion is coming but when will it start?

Who will be first to fall? who will be last to stand?  
Who will stop all this madness  
That has consequences no man understand?  
No man, no land!

Start the holocaust  
The reich will rise  
Propaganda, the reich will rise  
To last a thousand years

I see an evil rising  
The Rise of Evil
